Starting in 2019, CKA will launch six critical initiatives entitled, **“Engage, Enlighten, Enrich, Elevate, Empower, and Envision” (6Es)** to achieve this mission. These endeavors focus on developing meaningful networking and leadership development opportunities.

Our goals are to promote unity among Korean American leaders, strengthen our community through education and advocacy, and empower Korean Americans to be more impactful in their communities to ensure that our voices are part of the national discourse.

This document is an overview of the **Enrichment Initiative**. Join us as a sponsor of this important effort.

# eNRICHMENT

One of CKA's unique assets is the experience and wisdom of our diverse membership community. Connecting members with each other and outside leaders through meaningful engagement is an important value-added benefit for being a part of this community. To facilitate these interactions, CKA will organize two types of programs to connect small groups of leaders - **Civic Dinners** and **Executive Forums**.

## Enrichment Dinners with Senior Leaders

Across the country, CKA will host a series of civic dinners for 8 to 10 participants with senior mentors and experts to explore professional development themes and share wisdom, life stories, and insights. The goal is to provide a platform to learn from each other and get targeted advice in a small, intimate setting.

## Executive Forums with Outside Leaders

Across the country, CKA will host series of Executive dinners for 8 - 10 CKA participants with outside senior leaders to discuss important US-Korea and Korean American related issues. The goal is to engage CKA senior leaders with outside political and economic leaders to promote mutual understanding and ensure that the Korean American perspective is clearly communicated to key leaders around the country and the globe.

We understand that every individual and corporation is unique and welcome the opportunity to create a plan that fits with your priorities.
